ECO-FRIENDLY SUN PROTECTION

B1100 ZIP (PRESTIGE) & B1350 ZIP SOLAR

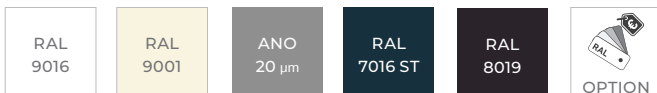

ECO-FRIENDLY SUN PROTECTION

Solar-powered ZIP screens are a sustainable, eco-friendly solution. This wind-resistant sun protection is also perfect for locations without an available power supply. Even north-facing façades benefit with a battery that ensures you've always got enough power. And because no wiring is required, there's no demolition work to worry about. That's a relief for installing screens at height.
